

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

1. (Currently amended) An internal substance delivery device for insertion into a body cavity, ~~[[said]]~~ the device includes a support frame having at least two resilient arms which retain ~~[[said]]~~ the device in the body cavity, wherein each resilient arm is capable of receiving and releasing a separate ~~substance delivery means~~ pod capable of releasing a substance into the body cavity, and wherein the at least two resilient arms are biased outward from a central section of the support frame.

2. (Currently amended) ~~[[A]]~~ The substance delivery device as claimed in claim 1, wherein the substance is a drug.

3. (Currently amended) ~~[[A]]~~ The substance delivery device as claimed in either claim 1 or claim 2, wherein ~~[[said]]~~ the device is an intra-vaginal release device.

4. (Currently amended) ~~[[A]]~~ The substance delivery device as claimed in claim 3, wherein the substance is released from the ~~substance delivery means~~ pod through osmosis.

5. (Currently amended) ~~[[A]]~~ The substance delivery device as claimed in claim 1, wherein the ~~substance delivery means are~~ pod is rounded.

6. (Currently amended) ~~[[A]]~~ The substance delivery device as claimed in claim 1, wherein at least one of the ~~substance delivery means~~ Pods is flexibly attached to a corresponding arm.

7. (Currently amended) ~~[[A]]~~ The substance delivery device as claimed in claim 6, wherein the at least one of the ~~substance delivery means~~ Pods is attached to the corresponding arm by a ball and socket mechanism.

8. (Currently amended) ~~A substance delivery means~~ The pod for attachment to a substance delivery device as claimed in claim 1.

9. (Currently amended) ~~[[A]]~~ The substance delivery device as claimed in claim 1, wherein the support frame is in the form of a wish bone.

10. (Canceled)

11. (Currently amended) ~~[[A]]~~ The substance delivery device as claimed in claim 9, ~~characterised in that~~ wherein the support frame is made of nylon.

12. (Currently amended) ~~[[A]]~~ The substance delivery device as claimed in either claim 9 or claim 11, ~~characterised in that~~ wherein the at least two resilient arms are sufficiently pliable to be moved together to allow the substance delivery device to be effectively compressed.

13. (Currently amended) ~~[[A]]~~ The substance delivery device as claimed in either claim 9 or claim 11, wherein the at least two resilient arms are capable of interlocking for removal or insertion.

14. (Currently amended) ~~[[A]]~~ The substance delivery device as claimed in either claim 9 or claim 11, ~~characterised in that~~ wherein the support frame includes a locator to enable the substance delivery device to be readily located and removed from *in situ*.

15-16. (Canceled)

17. (Currently amended) ~~[[A]]~~ The substance delivery device as claimed in claim 12, wherein the at least two resilient arms are capable of interlocking for removal or insertion.

18. (Currently amended) ~~[[A]]~~ The substance delivery device as claimed in claim 12, ~~characterised in that~~ wherein the support frame includes a locator to enable the substance delivery device to be readily located and removed from *in situ*.

19. (Currently amended) ~~[[A]]~~ The substance delivery device as claimed in claim 13, ~~characterised in that~~ wherein the support frame includes a locator to enable the substance delivery device to be readily located and removed from *in situ*.
